Attorney General’s office officials said the agreement, which is subject to court approval, resolves claims that Meta designed Instagram with “addictive features,” knowingly exposed young users to serious mental harms and intentionally misled the public about the safety of its platforms. Just like Big Tobacco and vaping companies have done in years past, Meta chose to maximize its profits at the expense of public health, specifically harming the health of the youngest among us. The complaint also alleges that Meta knew that young users, including children under 13, are active on the platforms, and knowingly collected data from these users without parental consent and targeted them.’ [Colorado Newsline, [10/24/23](#)]

2019-2021: WEISER EXPANDED COLORADO’S OPIOID LAWSUIT AGAINST PURDUE PHARMA AND THE SACKLER FAMILY TO WIN TENS OF MILLIONS FOR COLORADO

The settlement money would be paid out to Colorado over nine years, the attorney general’s office said. ‘Purdue Pharma and the Sackler family made billions of dollars from engaging in a widespread, multifaceted, deceptive and wrongful campaign to market and sell opioids,’ Colorado Attorney General Phil Weiser said in a written statement. ‘Their actions have contributed greatly to a crisis level of opioid use disorder cases and nearly 5,000 overdose deaths in Colorado. Today, we are holding Purdue and the Sacklers accountable for their reprehensible conduct and the crisis they caused in our state and around the country.’” [Colorado Sun, [7/8/21](#)]

December 2024: Weiser Celebrated The Scrapped Kroger-Albertsons Merger, “This Merger Was Bad For Colorado.” “Colorado Attorney General Phil Weiser reacted Wednesday after learning the proposed merger between Albertsons and Kroger, the parent company of King Soopers and City Markets, will no longer move forward. CBS News reported that Albertsons abandoned the \$25 billion merger with Kroger after a judge blocked the deal a day earlier. [...] Weiser celebrated Tuesday’s ruling as a win for consumers, workers and local farmers. On Wednesday, he said the merger would have harmed competition. ‘This merger was bad for Colorado. It was going to harm competition and the so-called divestiture remedies that were offered were insufficient to protect consumers and we needed to stop this merger,’ said Weiser.” [CBS News, [12/11/24](#)]

February 2024: Denver Post, Weiser Announced A Lawsuit To Block The \$24.6 Billion Merger Of Kroger And Albertsons “Because He Believes It Would Eliminate Competition And Harm Shoppers, Workers And Suppliers.” “Colorado Attorney General Phil Weiser said Wednesday that he is filing a lawsuit seeking to block the \$24.6 billion merger of Kroger and Albertsons, the state’s largest grocery store chains, because he believes it would eliminate competition and harm shoppers, workers and suppliers. [...] In a news conference announcing Colorado’s lawsuit, Weiser said he heard concerns from people in town halls held across Colorado last year. They worry about job losses, higher costs and lack of access for local farmers and ranchers to sell their products if the merger goes through.” [Denver Post, [2/14/24](#)]

- **Weiser Said The Merger Would Allow Kroger To Raise Prices On “Roughly Half All Of The Supermarkets In Colorado.”** “In a news conference announcing Colorado’s lawsuit, Weiser said he heard concerns from people in town halls held across Colorado last year. They worry about job losses, higher costs and lack of access for local farmers and ranchers to sell their products if the merger goes through. ‘These fears are warranted because the market for grocery stores in Colorado is already very concentrated, with too little competition,’ Weiser said. ‘This merger would make the problem worse, with Kroger controlling roughly half of all the supermarkets in Colorado.’ After the merger, Kroger could raise prices, ‘pinching consumers during a time when consumers are already concerned about the high cost they pay the grocery store,’ he added. Kroger owns 148 stores in Colorado, which operate under the King Soopers and City Market banners. Albertsons operates 105 Safeway and Albertsons stores in the state.” [Denver Post, [2/14/24](#)]
- **AG Weiser: “I Am Convinced That Coloradans Think This Merger Between The Two Supermarket Chains Would Lead To Stores Closing, Higher Prices, Fewer Jobs, Worse Customer Service, And Less Resilient Supply Chains.”** “Aiming to block a proposed merger between two of the nation’s largest grocery store chains, Colorado sued Albertsons and Kroger Wednesday in the Denver District Court. Kroger, which owns 148 King Soopers and City Market grocery stores in Colorado, wants to buy out its largest competitor for \$24.6 billion, acquiring the state’s 105 Albertsons and Safeways. ‘Coloradans are concerned about undue consolidation and its harmful

impacts on consumers, workers, and suppliers,' Attorney General Philip Weiser said in a statement. 'After 19 town halls across the state, I am convinced that Coloradans think this merger between the two supermarket chains would lead to stores closing, higher prices, fewer jobs, worse customer service, and less resilient supply chains.'" August 2026: Weiser Announced He Was Joining A Multistate Coalition To Challenge Trump Administration Proposed Changes To The United States Postal Service To Grant It "The Authority To Regulate Mail Voting In Elections." "Attorney General Phil Weiser today joined a coalition of 25 states in filing a lawsuit against the U.S. Postal Service challenging its new rule that purports to grant itself the authority to regulate mail voting in elections. Tens of millions of voters across the country rely on mail-in ballots, including Colorado, and the coalition argues the USPS rule will prevent states from effectively administering their mail voting programs, putting citizens' right to vote at risk." AS GOVERNOR HE WILL LOWER THE COST OF HEALTHCARE, BUILD AFFORDABLE HOUSING AND PROTECT COLORADO FROM THE TRUMP ADMINISTRATION.

WEISER PUT AFFORDABILITY AND STANDING UP TO TRUMP AT THE CENTER OF HIS CAMPAIGN

May 2026: Weiser Released His "Colorado Blueprint," A Policy Plan Focused On Affordability And The Ways He Will Fight Back Against Trump's "Unlawful Attacks On Colorado." "In this Blueprint, I lay out my continued commitment to fight this White House and federal government for its unlawful attacks on Colorado—abusing government agencies for political retaliation, withholding critical federal dollars to coerce states to adopt Trump's policies, illegally firing critical federal workers, unlawfully punishing our state for our voting laws, or sending federal troops into American cities. I've led that fight as your attorney general, and I will continue it as your next governor. And fighting back is just part of what our next governor must do—I am running for governor to drive forward and solve the issues facing Colorado. Our Blueprint does that by charting our course for Colorado's future, for us, and for our kids—making our state more affordable to live in; ensuring jobs, health care and a quality education are available to all; and protecting our land, air, and water. Our Colorado Blueprint lays out my comprehensive vision for how we can build a state in which all can live in and our children can see themselves having a future here." WEISER'S "HEALTHY COLORADO PLAN" WOULD WORK TO LOWER THE COST OF HEALTH CARE BY CRACKING DOWN ON THE ACTORS RAISING HEALTH COSTS

Weiser Said He Would Crack Down On The Actors Raising Health Care Costs. "On the health care front, too many people are trying to make money off you when you're sick. Our health care system is broken. We can fix it. Primary care for all, the smartest, best form of care, going after those, engaging in raising prices, whether it's big pharma and prescription drugs, whether it's efforts to roll up practices by private equity to monopolize practices. We're going to crack down on those drivers of cost, and we're going to make sure that people are treated fairly in the health care system. As for child care, I hear this all the time, young people saying, I don't know if I can afford to actually have a family, so I might not have a family, or I'll move to a state where I can afford it, or I'll drop out of the workforce." [KUNC, Interview with Phil Wesier, [6/8/26](#)]

Weiser's "Colorado Blueprint" Listed Several Health Care Policy Proposals To Lower The Cost Of Care.

Healthcare

Every Coloradan should have accessible quality health care for the lowest cost. As governor, I will follow our Healthy Colorado Plan to:

- Establish "Primary Care for All", a systemwide mandate to move us from our current "sick care" system to a true "health care" system, focusing on value-based care tied to prevention and healthy outcomes, aligning physical, mental and behavioral health for "whole person" care, and launching "Hope", our youth mental health mentoring initiative.
- Focus on "Best care, best price", expanding ways for Coloradans to afford and access care, optimizing the purchasing power of public employee health plans to add new groups, building on the "Colorado Option" to provide more affordable insurance coverage options for individuals and families, and reducing drug costs.
- Create a "Health Consumer Pact", a commitment to protect and empower health care consumers and public health, challenging consolidation causing increased prices, curbing surprise billing, protecting families from medical debt, stopping drug price collusion, preserving caps on lifesaving medications like insulin, and enhancing our public health infrastructure.
- Rebuild our workforce, with stronger training programs and spearheading ColoradoCorps, a service program for young adults.
- Launch a Health Care Stabilization and Innovation Task Force, aligning stakeholders to protect care now impacted by federal cuts, including a Safety Net Stabilization initiative to ensure all eligible for Medicaid are enrolled.
- Activate "Technology for Good", leveraging technology and establishing guidelines to advance new ideas to improve quality and access, and protect consumer data and information.

- **April 2026: Weiser Released This Three-Part "Healthy Colorado Plan" Calling To Make Health Care More Accessible And Affordable.** "Access to and delivery of care across physical, mental, and behavioral health is fragmented, reducing effectiveness and increasing the cost of providing care. Rural hospitals and providers are facing constant pressures to keep their doors open and find the talent they need—doctors, nurses, tech professionals—to provide care. Colorado must step forward and fill the gap. As Governor, I will make sure we do so. Our north star will be accessible quality health care for the lowest cost." [Phil Weiser for Colorado, Health Colorado Plan, 4/7/26]

WEISER'S "COLORADO BLUEPRINT" PLAN INCLUDED PROPOSALS TO BUILD MORE AFFORDABLE HOUSING, CUT RED TAPE, AND EXPAND PAYMENT ASSISTANCE FOR FIRST-TIME HOMEBUYERS

Weiser Said He Would Create New Incentives To Build More Starter Homes, Including Lower Permitting Fees, "We've Got To Start Building Them, And A Lot Of Them." WEISER: "We've got important work to do, because right now, starter homes that we used to have 20 years ago, so teachers could afford to live in the communities where they worked, those homes don't exist. We've got to start building them, and a lot of them. That means we have to create incentives to build those homes, not incentives to build mega mansions like we have today. I want lower permitting fees if you're building a starter home than if you're building a mega mansion. I want to make it quick and easy to get them permitted." [KUNC, Interview with Phil Wesier, [6/8/26](#)]

Weiser's "Colorado Blueprint" Laid Out Several Policy Proposals To Lower The Cost Of Housing.

Affordable Homes and Communities

All Coloradans deserve a safe, affordable place to call home. Yet too many families are forced to choose between housing and essentials like childcare or healthcare. As governor, I will:

- Boost homes Coloradans can afford, increasing attainable owner-occupied homes by 40,000, closing the current gap on the shortfall on such homes by 50%.
- Speed up permitting and partner with local governments to lower fees for affordable homes available for sale under \$600,000.
- Cut red tape to streamline state processes.
- Expand down payment assistance to support first-time homebuyers—especially essential workers like teachers, nurses, and first responders.
- Protect renters from unfair practices and keep affordable units available.
- Ensure that out-of-state corporate investors don't mistreat Colorado families.
- Ban algorithmic price collusion by corporate landlords.
- Promote innovation & skilled trades: modular housing, apprenticeships, and workforce training.

[13:12] **Matt Mauro:** Do you support the law on the Colorado constitution that says a woman has a right to an abortion? George?

[13:19] **George Markert:** I do not.

[13:20] **Mauro:** What would you do if you’re lieutenant governor, in terms of addressing that law, keep it as it is? Would you try to get it rescinded?

[13:28] **Markert:** Work with all the stakeholders, try to get it rescinded.

[13:30] **Mauro:** You would. Victor?

[13:31] **Victor Marx:** For me, I'm life. It's a life and death situation. I am for life. Right now, it's enshrined on the constitution. The people, they'll decide whether they change it or not.

[...] Marx has been unapologetic in his support of an extreme anti-abortion agenda with no exceptions for rape, incest, or the health of the pregnant patient. [19:00] MARX: ... You’re single. Maybe some of you who are divorced or you’re just like, ‘Bring me a man. I need a man. Someone's got to lead when decisions have to be made. You can make them jointly, but ultimately one person -- I'm always going to say the man -- But there are areas in my life I submit to my wife in the sense that I go, 'Hey, what do you think is the best course of action for this?' And they do that naturally. I mean, naturally. Which I'm all for women being tough, able, capable princess warriors, but when they start seeking to fill the role of a man, what is the extreme of it? It's all the way to the perversion of sexual desire that God has intended for man and woman. [Facebook, [07/27/20](#)]
